AWESOME OFFICE COFFEE

“

I believe humans get a lot done, not because we're smart, but because we have thumbs to make coffee.

WELCOME TO THE COFFEE CO.

The Coffee Co. focuses on a relatively new channel of distribution, called OCS (office coffee systems).

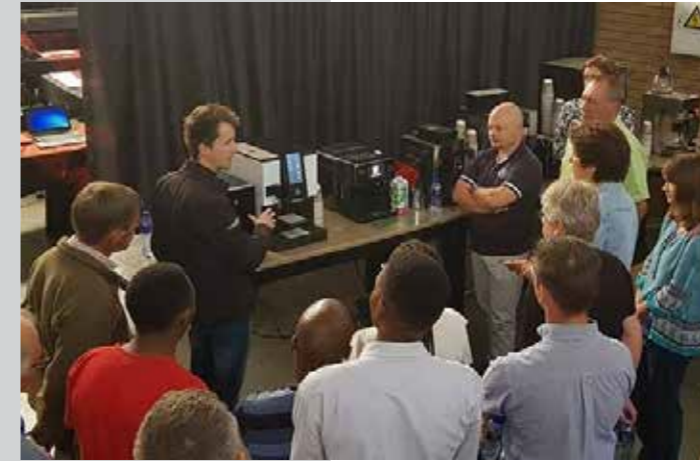

People expect great coffee these days, no matter what they're doing. Gone are the days when stale dregs, burnt remains, and instant crystals would suffice. The Coffee Co. can bring this coffee into the workplace – easily and affordably – because The Coffee Co. is about great coffee anywhere, anytime.

Whether in the office, shop or showroom, we make it possible to deliver coffee that satisfies anyone and everyone. Our systems make fresh coffee all day, customised for the drinker, without a lot of time or effort., and our coffee is among the finest on the market

We are all about great coffee. The way coffee should be made but often isn't. Great coffee speaks for itself, and so do great coffee systems!

TESUCO
SERVICES

Eurika Coertze

Personal Assistant to Directors

We needed a local Coffee supplier that did more than just sell us coffee. We needed someone who would be willing to go the extra mile with us, and we found them.

The Coffee Co. especially Mark with his wide-ranging knowledge of coffee machines helped us choose the right coffee machine for our establishment. Mark spent time with us carefully selecting the right coffee beans for the perfect tasting coffee and provided training for our staff to ensure we had the knowledge to make the perfect cup of coffee. We consistently get excellent feedback from our visitors on our coffee we serve, including from some proper connoisseurs. The Coffee Co. are passionately about providing the best customer service at any given time, building a relationship with you from the onset. We don't see The Coffee Co. as just another supplier, I was and have been incredibly impressed with the service from Mark and the team. Six years on, they are part of our team and I look forward working with them for years to come.
